To whom it may concern

I have been working with Laure Gathy from Global Telesat for the past 4 years through a partnership between Rascomstar (satellite operator) and Global Telesat (Teleport services).

Laure is straight, honest and very direct : these qualities are real enablers to build the partnership and keep the trust between our 2 companies.

Also she is always reactive and "grabs the bull by the horn" on any commercial or technical topic until a solution is found.

I really appreciate this working relationship and can assert that she's a trustworthy person
